

Vashishthya Client Demo & Loom Video Script

Target Client: Dr. Prashant Singh & Dr. Pooja Singh

Organization: Vashishthya Research Academy

Recording Mode: Dual-View Interactive Pitch (Deck / Notion / Sheets)

Target Loom Duration: 4 to 5 Minutes

Sister Reference: Hrishita Maurya

Tone & Style: Professional, Warm, Authoritative, Reassuring

PART 1: PRE-RECORDING TAB SETUP (BEFORE PRESSING RECORD)

Open the following 3 browser tabs in order:

- **Tab 1 (Presentation Deck):** `vashishthya\_loom\_presentation.html` in browser full-screen mode.
- **Tab 2 (Live Notion Workspace):** Vashishthya Master Client Desk workspace.
- **Tab 3 (Live Synced Google Sheet):** Vashishthya-01Master-OS Google Sheet.

Pre-Record Checklist:

1. Ensure Tab 2 (Notion) has 2-3 clean, realistic sample entries pre-filled (e.g., Dr. Rajesh Kumar, Ph.D. Writing Assistance, Total Fee: 35,000, Advance: 10,000, Balance: 25,000).
2. Ensure no blank or error fields are visible on screen.
3. Test the WhatsApp action button link on Tab 2 to confirm WhatsApp Web opens smoothly.
4. Keep microphone audio clear and test recording in a quiet environment.

PART 2: STRATEGIC AUDIT & RECORDING RULES (WHAT NOT TO DO)

1. Never Apologize or Say "I am not here to sell anything":

- Saying "I am not here to sell anything or charge any fee" lowers your perceived authority and sounds defensive.
- Reframe with high authority: *"I built a custom, zero-subscription AI automation workspace specifically for your journal's daily operations to save your team 50+ hours every month."*

2. Never Show Blank Fields or Incomplete Cards:

- Saying *"I have not written the email address but you can add that as well"* makes the system look half-baked.

- Pre-populate all demo fields with realistic data before pressing record.

3. Never Highlight Lack of Internal Knowledge:

- Saying *"since I don't know about your internal work, I have not created this for employees..."* diminishes trust.

- Frame your setup as a flexible, modular framework: *"I've pre-configured the core stages of scholar intake. We can fine-tune your internal stage names during a brief 10-minute onboarding call."*

4. Use Crisp, Professional Terminology:

- Avoid mispronunciations or vague phrases like "anti-aggressive", "scrap", "this column".

- Use clear terms: **Notion Intake Portal**, **Google Scholar Indexing Meta-Tags**, **Automated Financial Reconciliation**, **1-Click WhatsApp Pre-filled Receipt**.

5. Focus on the Core Wins First:

- Highlight the 3 immediate operational victories first: Scholar Intake Form, 15-Minute Google Sheets Auto-Sync, 1-Click WhatsApp Balance Alert.

- Keep future features contained in a single, focused roadmap slide at the end.

PART 3: FULL WORD-FOR-WORD LOOM VIDEO SCRIPT & SCREEN CHOREOGRAPHY

STAGE 1: INTRO & HIGH-VALUE HOOK (0:00 - 0:45)

VISUAL: Tab 1 (Slide 1: Vashishthya Master Client Desk Title Slide)

SCREEN CHOREOGRAPHY

Screen Action:

Start on camera face-cam or full view of Slide 1. Speak calmly, with warmth and authority.

Full Word-for-Word Spoken Script:

FULL WORD-FOR-WORD SPOKEN SCRIPT

"Namaste Prashant Sir and Pooja Mam.

I got your reference through my sister, Hrishita Maurya, and after observing how dedicatedly you both run Vashishthya Research academy and your academic journals, I noticed how much operational effort goes into managing scholars manually every single day.

Across most academic research journals, a massive amount of staff time is lost taking scholar calls, writing notes on paper, tracking advance payments manually, and repeatedly calling staff members to check paper review progress. This manual friction eats up nearly 50 to 100 hours of staff productivity every month.

To solve this completely, I built a custom, zero-subscription operational workspace tailored specifically for your team. It completely eliminates paper notes, automates fee balance calculations, syncs your data safely, and lets you send 1-click WhatsApp updates to scholars.

Let me show you exactly how it works in 3 minutes."

STAGE 2: DAILY OPERATIONAL FRICTION & SAVED HOURS (0:45 - 1:30)

VISUAL: Tab 1 (Slide 2: Recover 50-100 Staff Hours & Prevent Lost Inquiries)

SCREEN CHOREOGRAPHY

Screen Action:

Click to Slide 2. Point out the core metrics on screen showing staff hours saved and zero lost scholar leads.

Full Word-for-Word Spoken Script:

FULL WORD-FOR-WORD SPOKEN SCRIPT

"Right now, when scholars call to inquire about paper publication, Ph.D. assistance, or patent filing, details often get noted on loose paper or scattered phone chats.

Because there is no central dashboard, tracking who paid advance fees and which reviewer is handling which paper takes constant manual follow-ups.

With the Vashishthya Master Client Desk, we turn that entire chaotic process into a structured 3-step digital system that runs smoothly on both your mobile phones and laptops."

STAGE 3: LIVE NOTION CALL INTAKE DEMO & AUTO BALANCE (1:30 - 2:45)

VISUAL: Tab 1 (Slide 3) -> Switch Browser Tab to Tab 2 (Live Notion Workspace)

SCREEN CHOREOGRAPHY

Screen Action:

1. Switch smoothly to Tab 2 (Notion Workspace).
2. Click **+ New Scholar Intake** button or open the Intake Form view.
3. Show candidate entry: Type `Dr. Rajesh Kumar` & Phone `9876543210`.
4. Select services: Check `Ph.D. Writing Assistance` and `Patent Filing Service`.
5. Enter Total Agreed Fee: `35000` & Advance Payment Received: `10000`.
6. Point cursor to the Balance Due field: Highlight how `25000` balance due automatically calculates.
7. Show Payment Status tag: Point out `Partially Paid`.
8. Check off a sub-task item to show the visual progress bar updating live on screen.

Full Word-for-Word Spoken Script:

FULL WORD-FOR-WORD SPOKEN SCRIPT

"Let me demonstrate how simple this is during a live scholar call.

Whenever a scholar calls your team, anyone on your staff opens this clean Call Intake Form on their phone or laptop.

They enter the scholar's name, Dr. Rajesh Kumar, their phone number, and select the services requested—for example, Ph.D. Writing Assistance and Patent Filing.

Next, they enter the total agreed fee—35,000 rupees—and the advance payment received, 10,000 rupees.

Look right here: the system instantly calculates the remaining balance due of 25,000 rupees automatically, and tags the payment status as 'Partially Paid'. When the remaining balance is paid later, updating the advance field automatically marks the status as 'Fully Settled'.

Your staff can also check off workflow tasks as they complete research steps, and this visual progress bar updates live on your screen so you always know exact paper progress without asking anyone."

STAGE 4: 15-MINUTE FAIL-SAFE GOOGLE SHEETS AUTO-SYNC (2:45 - 3:30)

VISUAL: Switch to Tab 1 (Slide 4) -> Switch Browser Tab to Tab 3 (Live Google Sheet)

SCREEN CHOREOGRAPHY

Screen Action:

1. Switch to Tab 3 (`Vashishthya-01Master-OS` Google Sheet).
2. Point cursor to the row containing `Dr. Rajesh Kumar` that was automatically backed up.
3. Show the Audit Log / Last Synced Timestamp column updating automatically.

Full Word-for-Word Spoken Script:

FULL WORD-FOR-WORD SPOKEN SCRIPT

"Now, you never have to worry about losing data, file corruption, or training staff on complicated software.

Every 15 minutes, our automated background system runs silently and syncs every single record from Notion into your private, shared Google Sheet.

Here in the Google Sheet, you can see Dr. Rajesh Kumar's record backed up automatically with full payment details and timestamps. It requires zero manual entry, zero monthly subscription fees, and gives you a 100% permanent, secure backup accessible anytime from anywhere."

STAGE 5: 1-CLICK WHATSAPP PRE-FILLED RECEIPT & ALERT (3:30 - 4:15)

VISUAL: Switch to Tab 1 (Slide 5) -> Switch Browser Tab to Tab 2 (Live Notion Workspace)

SCREEN CHOREOGRAPHY

Screen Action:

1. Switch back to Tab 2 (Notion Workspace).
2. Click the pre-formatted **WhatsApp Link** on Dr. Rajesh Kumar's row.
3. Show WhatsApp Web opening with the auto-generated receipt message pre-typed:

`Namaste Dr. Rajesh Kumar ji! Your intake for Ph.D. Writing Assistance & Patent Filing (Total: Rs.35,000, Advance: Rs.10,000, Balance Due: Rs.25,000) has been recorded. Current Status: Under Review...`

Full Word-for-Word Spoken Script:

FULL WORD-FOR-WORD SPOKEN SCRIPT

"Communicating with scholars is also completely effortless now.

Your team does not need to type long manual messages or copy-paste payment details into WhatsApp.

With just 1 click on the WhatsApp button inside Notion, WhatsApp Web opens automatically with a personalized, pre-formatted message ready to send:

It addresses the scholar by name, confirms their registered services, states their total fee, advance paid, exact balance due, and current paper status. Your staff can send formal, professional updates to scholars in under 2 seconds."

STAGE 6: WEBSITE MOBILE LAYOUT & GOOGLE SCHOLAR AUDIT (4:15 - 5:00)

VISUAL: Switch to Tab 1 (Slides 6 & 7: Journal Website Mobile Audit & Google Scholar Tagging)

SCREEN CHOREOGRAPHY

Screen Action:

Show Slide 6 & 7 displaying the mobile website layout comparison and Google Scholar indexing tags.

Full Word-for-Word Spoken Script:

FULL WORD-FOR-WORD SPOKEN SCRIPT

"In addition to this operational workspace, I audited your official journal website and identified two simple technical improvements we can make for you:

First, optimizing your website layout so scholars can read published papers cleanly on mobile smartphones without horizontal scrolling or distorted text.

Second, adding 3 standard Google Scholar metadata meta-tags directly into your website code. This ensures that every research paper published in your journals gets indexed properly on Google Scholar, giving your contributing authors maximum citation visibility and boosting your journal's reputation."

STAGE 7: FUTURE AUTOMATION ROADMAP (5:00 - 5:30)

VISUAL: Tab 1 (Slide 8: 5 Powerful Automations for Vashishthya)

SCREEN CHOREOGRAPHY

Screen Action:

Display Slide 8 listing the 5 future automation features.

Full Word-for-Word Spoken Script:

FULL WORD-FOR-WORD SPOKEN SCRIPT

"This custom workspace is just step one. As your journal grows, we can seamlessly add 5 powerful modular features for your team:

1. Automated Word Document Layout Checker (verifies paper margins and formatting in 10 seconds).
2. 24/7 WhatsApp Inquiry Assistant for incoming scholar questions.
3. Automated Reviewer Reminder Bot for peer-review deadlines.
4. 1-Click Invoice & Payment Receipt Generator.
5. Instant Plagiarism & Originality Verification Assistant."

STAGE 8: FREE PILOT HANDOVER & ZOOM CALL CTA (5:30 - 6:00)

VISUAL: Tab 1 (Slide 9: Free Pilot Handover & 20-Minute Zoom Setup)

SCREEN CHOREOGRAPHY

Screen Action:

Display Slide 9. Return to camera face-cam or highlight the clear CTA text on screen. Speak with high warmth, confidence, and clarity.

Full Word-for-Word Spoken Script:

FULL WORD-FOR-WORD SPOKEN SCRIPT

"I have set up this entire operational workspace and prepared the website mobile fixes for you as a complete, zero-cost pilot project for Vashishthya Research.

If you like this system, simply reply 'YES' to me on WhatsApp or email.

We can schedule a brief 20-minute Zoom call to hand over full admin access to your team, walk you through the simple 5-minute setup, and ensure your daily operations run effortlessly.

Thank you so much, Prashant Sir and Pooja Mam. Have a wonderful day!"

PART 4: TECHNICAL RECORDING PRO-TIPS

1. **Tab Hygiene:** Keep Tab 1 (Deck), Tab 2 (Notion), and Tab 3 (Google Sheet) open side-by-side. Use mouse clicks or `Ctrl + Tab` to transition smoothly without pauses.
2. **Audio Setup:** Speak clearly into your microphone at a steady, measured pace.
3. **Cursor Guidance:** Use your mouse cursor to point directly at total fee calculations, progress bars, and WhatsApp links as you speak about them.
4. **Zero Hesitation:** Rehearse the script 1-2 times to eliminate filler words like "um", "basically", or "like".
